DETAILED ACTION

Acknowledgments

1. This office action is in response to the after-final amendment filed on 2/18/2010.
2. In the reply the applicant cancelled claims 21, 27, 29, 30 and withdrawn claims 9, 17, 20, 25. Claims 24 and 26 were previously indicated as allowable.
3. Thus, claims 24 and 26 are pending for examination.

Allowance

4. Claims 24, 26 are allowed.
5. The following is an examiner's statement of reasons for allowance:
6. The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The prior art does not disclose or render obvious the combination as claimed specifically including a microfluidic device for delivering a drug to an individual having a hydrogel pressure source expandable in response to exposure to a predetermined physical property and engaging a reservoir to urge drug from the reservoir through an output needle into a individual, and a valve defining a chamber and interconnecting the reservoir and output needle, the valve having a flexible membrane dividing the chamber into a drug flow portion and a trigger receiving portion and in the trigger receiving portion having a trigger having a first and second configuration actuating the valve to a position preventing flow of drug from the reservoir to the output needle and a non-actuated position allowing flow, and where a first sensing needle allows physiological fluids to pass from the individual to the trigger receiving portion in combination with the other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
